

MINI GPS® DISH

A Small Dish With Big Aspirations

The new Mini GPS® dish. The beginning of a new smarter line of dishes. Involving dozens of engineers.

The smart way to conceive.

- The 38 mm footprint, calibrated for optimal embryo culture
- A safer dish with ergonomic handles
- Raised lid for faster equilibration
- Par focal with the larger GPS dish – no more adjusting focus, will save time
- Numbered wells and wall indentations provide orientation
- Super thin well depth optimizes temperature control
- Re-assessed, re-invented, re-tested – a dish with 7 (seven) patents
- Simply the smartest and coolest dish for embryo culture – ever!
